RI DEM FACILITY I.D. #2351

Dear Mr. Ferdinandi:

A Closure Assessment for the above facility, prepared by Triangle Environmental, dated February 19, 1993, has been reviewed.

Based on the representations made by the consultant in the report and our inspector's observations at the time of removal, no further action is presently required by this Office. However, the D.E.M. reserves the right to future corrective measures should any significant contamination in groundwater or soil become apparent.

Enclosed for your records is a Certificate of Closure for the closed underground storage tank(s).

Sincerely,

Bruce T. Catterall
